PREFACE

This publication gives the status of photographic interpretation projects as of 31 October 1962. The purposes of the publication are 1) to facilitate inter-agency coordination of photographic interpretation projects, 2) to avoid duplication, and 3) to indicate the status of departmental and national projects. It consists of two parts. The first part lists the current projects by category. The second part lists them by departmental requirement numbers. An explanation of the reporting table appears on the following page.

TABLE OF CONTENTS

	Page
Explanation of Table	iv
Part I. Listing of Projects by Category	1
Part II. Listing by Departmental Requirement Numbers	
Army Requirements	25
Navy Requirements	28
Air Force Requirements	30
NSA Requirements	31
CIA Requirements	32
NPIC Requirements	45
Other Requirements	50

Explanation of Table

(1) Project	(2) Requirement	(3) Country	(4) Project Description	(5) Org	(6) Status	(7) Report
JN-4/62	PC 121-1	UR	SOUTHERN USSR AIRFIELDS	PN	100	NPICR 6-62

(1) Project:
Letters indicate type of project: A-Army, N-Navy, F-Air Force, C-CIA, P-NPIC, JN-National. Project letters are followed by project number and year.

(2) Requirement:
Letters indicate the requesting office.

(3) Country:
The two-letter country code used by the Bombing Encyclopedia is used in this column, e.g., UR is USSR, CH is China. Exceptions: BL is Sov Bloc and WW is World Wide.

(4) Project Description:
This column gives a brief description of the project. A "DG" indicates that reports resulting from the project will be downgraded.

(5) Organization:
This column lists the organization responsible for the project.

(6) Project Status:
The first two columns in this category show the percentage of work completed on the project in one of three phases. The third column indicates the phase by the letters A (Analysis), P (Publication) or R (Reproduction). When completed, the status is indicated as 100. An I indicates that the project is inactive.

(7) Report Identification and Number:
When a project has been completed, a group of letters and numbers describing the product of the project is given in this space. In the case of NPIC Reports, for example, the alpha-numerical designation NPICR 19-62 means that an NPIC report bearing the designation R-19/62 has been published. If the project was completed by interoffice memo, the space will be marked IOM. If the project has been canceled, the space will have CANC; if transferred, the letters TRFD. Other designations used in this column are explained below:

RO - Navy designation
TMO - Navy designation
OVLAY - Overlay
BREFS - Briefs
PIRTK - Army designation
TMX - Army designation
PNTS - Prints
VUGR - Vu-graphs
TPUB - Technical Publication
PAR - Control designation
SC - Control designation
TH - Control designation
